The rugged, waterproof GPSMAP 60 is the perfect, low-cost, navigator for wherever your spirit of adventure takes you:

- Large, sunlight-readable, four-level grayscale display with bright LED backlight makes it easy to find your way — day or night
- 28 hours of battery life for more hours of outdoor enjoyment
- Both serial and USB connections for fast and versatile download transfer
- Built-in basemap with automatic routing capabilities to guide you, turn-by-turn, with tone prompts to your destination
- 24 MB of internal memory for lots of storage of optional MapSource marine, topo and city street mapping downloads

Like the other products in the 60 series, this trusty handheld is compact and lightweight, with a user-friendly interface. It's reliable, and extra-precise as WAAS can make it. Special geocaching and geolocation gaming modes provide entertainment, as well as trailblazing navigation capability. The unit also includes an alarm clock, sunrise/sunset and moon phase tables, optimal hunting and fishing times — plus much more.

Fully compatible with the entire line of MapSource products, the GPSMAP 60 makes it easy to navigate the great outdoors.
